

## Temporary Closure of Kwinana Freeway PSP between Mount Henry Bridge and Gentilli Way, Salter Point

Advice has been received from Main Roads WA that this section of the Kwinana Freeway PSP will be closed for a period of 10 weeks from 19 January to undertake foreshore protection works on the Canning River Foreshore.

The timing of the Temporary Closure of Kwinana Freeway PSP between Mount Henry Bridge and Gentilli Way, Salter Point, has been chosen to coincide with the low tide conditions required to enable the works to be undertaken.

The works will include:

- installation of retaining walls to protect the footbridge footings
- realignment to straighten 120m of the PSP just south of the Edgewater Road footbridge

Riders will be required to use an alternative route for the duration of the works. A suggested detour is shown below.

For further information contact Main Roads WA on 138138.
