

**Mitchell Freeway Principal Shared Path - Reconstruction works around Princeton Estate Development, Stirling**

A section of the Mitchell Freeway Principal Shared Path (PSP) has been closed for a significant period due to construction works in and around the Princeton Estate development.

The developer is now undertaking reinstatement works on the PSP and it should be re-opened by the end of January.

Cyclists and pedestrians that normally travel this route should be aware that construction vehicles and equipment will need to gain access to the area in question.

As a consequence, path users should be particularly vigilant and exercise caution while travelling through the area.
