

## Information Bulletin IB-110G

# Approved Seat Belt Repairers

The Department of Transport (DoT) permits certain organisations to repair seat belts in Western Australia.

### Summary

- The minimum conditions that must be met by organisations carrying out seat belt repairs, and the requirements that are applicable in carrying out the work are stipulated in the Circular to Industry CI-109, Seat Belt Repairers.
- Repairs are restricted to replacement of webbing only, without any repair or modification of mechanical components permitted.
- Seat belt assemblies must not be repaired if there is evidence or knowledge that the assembly has been subject to loading in a vehicle accident or that the vehicle was subject to flood damage.

### Approved Repairers

Repair of seat belts may be carried out only by approved organisations. DoT has approved the following organisations to carry out seat belt repairs (current as of October 2017):
