

## Coastal Protection Grants 2011/12

	Location (Applicant)	Project	Type	Requested grants	Comments	Grant Amount
1	City of Geraldton-Greenough	Beresford design options	Investigation and design	\$ 50,000	Continuation of essential study for future coastal infrastructure and management	\$ 50,000
2	Shire of Albany	Erosion protection at Emu Point	Investigation and design	\$ 35,000	An essential study to inform future coastal management	\$ 35,000
3	Geraldton (University of Curtin)	Sediment Transport Study	Investigation and design	\$ 120,000	Continuation of essential study for future coastal infrastructure and management	\$ 120,000
4	City of Stirling	Scarborough to Sorrento Beach Profile Surveying	Investigation and design	\$ 25,000	A valuable study to inform future coastal management given existing erosion and the value of public infrastructure at risk	\$ 25,000
5	Cocos Island (Shire of Cocos Keeling)	Pulu Gangsa Seawall	Construction	\$ 20,000	Considered to be the best available short-term management measure	\$ 20,000
6	Point Peron to Naturaliste (Consortium of local governments)	Coastal Adaptation Decision Pathways Project	Investigation and design	\$ 50,000	A valuable study to inform future coastal management. Outcomes will inform decision making for a large area of the state	\$ 50,000
7	Esperance Ports	Town Beach Sand Nourishment	Construction	\$ 100,000	Considered to be the best available short-term management measure	\$ 45,000
8	City of Cockburn	Catherine Point Groyne Repair	Construction	\$ 350,000	Cost effective alternative to a full reconstruction	\$ 300,000
9	Statewide (University of Western Australia)	Statistical tropical cyclone database	Investigation and design	\$ 70,000	A valuable study to inform future coastal management. Outcomes will inform decision making for the entire state	\$ 70,000
10	Shire of Broome	Pindan cliff erosion protection options	Investigation and design	\$ 60,000	Study to investigate most appropriate option for shoreline protection given the significance of the area	\$ 60,000
11	Cockburn Sound (Consortium of local governments)	Cockburn Sound Coastal Adaptation Pathways Project	Investigation and design	\$ 100,000	Outcomes from study will inform future coastal management for a large area of the state	\$ 70,000
12	City of Joondalup	Vulnerability Study - North of Hillary's	Investigation	\$ 30,000	A valuable study to inform future coastal management	\$ 30,000
13	Shire of Busselton	Locke Estate - future coastal work	Investigation and design	\$ 20,000	A valuable study to inform future coastal management	\$ 20,000
14	Shire of Busselton	Rock seawall refurbishment	Construction	\$ 150,000	Cost effective alternative to a full reconstruction	\$ 150,000
15	Town of Kwinana	Kwinana beach seawall repairs	Investigation and design	\$ 10,000	Appropriately designed seawall considered best long term management strategy	\$ 10,000
16	Shire of Carnarvon	Pelican Point remediation and protection	Construction	\$ 150,000	Grant reduced to fund an investigative study to determine most appropriate management option	\$ 30,000
				<b>\$ 1,340,000</b>		<b>\$ 1,085,000</b>
