From Lindsay Watson,
Chairman ARPG WA.

Dear Sir,

I am writing to you on behalf of the WA State Tourist & Heritage body ARPG WA to express my concern over the draft "latest model bill," to be presented to the WA parliament later on this year.

In particular the re writing of the contentious Section 188 and reference to volunteers immunity from prosecution. It is our belief that a previous version of this document was written in such a way that the T&H sector was happy. In the latest version discussed at a meeting Thursday last, 4th of June, the previous satisfactory wording was removed, substituted by the above.

We request that the previous agreed NTC wording be re installed and the "latest version" wording be deleted.

Yours faithfully

Lindsay Watson
