Walpole to Denmark Boating Guide

The Walpole to Denmark Boating Guide covers an area along our south coast noted for large waves and unpredictable swell. Skippers need to prepare for all voyages by checking the weather and ensuring they log on.

Ocean entrances
Siltation problems at the ocean entrances cause very dangerous conditions for boaters, with bars forming. Don't risk crossing a bar unless you have local knowledge, experience and the right kind of boat. Wear a lifejacket while crossing a bar in any boat at any time.

Recreational Skipper's Ticket (RST)
The person in charge of a recreational vessel with a motor of **6hp or less** is not required to hold a Recreational Skipper's Ticket (RST). A person in charge of a recreational vessel with a motor **greater than 6hp** is required to hold an RST. You are required to carry your RST card with you when boating.

Age restrictions
A person under 10 years may not drive a motor boat. RST holders over 14 but under 16 years of age are restricted to operating during daylight hours at a speed less than 8 knots.

Interstate skipper's tickets
If you hold a valid/current interstate ticket, recognised by DoT and you enter, as a visitor or with the intention of permanently residing in Western Australia, you have three months to have the qualification recognised. For further information visit our website or call 13 11 56.

General speed limit restrictions
It is illegal, in any navigable waters to drive a motor boat at a speed exceeding eight knots, water ski or para-sail:

- through an arch of a bridge;
- in or through a mooring area;
- within 15 metres of a vessel underway;
- within 50 metres of -
 - a moored vessel;
 - a person in the water;
 - a jetty or wharf;
 - a river bank or low water mark.

Personal water craft (PWC)

Every skipper of a PWC must hold an RST. A skipper who is older than 14 but under 16 years of age with an RST can only operate a PWC during daylight hours at a maximum speed of 8 knots.

- Every person on board a PWC must wear a lifejacket (minimum 50S) at all times.
- When travelling beyond 400 metres from shore in unprotected waters you need:
 - a GPS enabled EPIRB or PLB (must be worn); and
 - flares or electronic visual distress signal device.
- Beyond 4 nautical miles from shore in unprotected waters a marine radio must also be carried.

PWC may operate when towing a water skier. When towing a water skier all vessels are required to carry an observer of at least 14 years of age. Observers must also wear a lifejacket.

PWC not engaged in water skiing must at all times remain well clear of the take-off and landing area and any vessels engaged in water skiing.

For further information visit our website or call 13 11 56

Paddle Craft

Recreational canoes, kayaks, surf skis, wave skis, inflatables or similar paddle craft must comply with WA marine laws including carriage of safety equipment.

- When travelling beyond 400 metres from shore in unprotected waters you need:
- lifejackets (minimum 50S) (must be worn);
 - a GPS enabled EPIRB or PLB (must be worn); and
 - flares.

For further information visit our website or call 13 11 56.

Navigation lights

All vessels underway during the hours of sunset to sunrise must display navigation lights appropriate to the particular size and type of vessel.

Paddle craft, kiteboarding and windsurfing

- When travelling beyond 400 metres from shore in unprotected waters you need:
- lifejackets (minimum 50S) must be worn;
 - a GPS enabled EPIRB or PLB (must be worn).
 - flares.
- For further information visit our website or call 13 11 56.

Kiteboards and windsurfing

With the onset of the sea breeze windsurfers and kiteboarders congregate at many popular locations. In certain conditions these small, fast moving sailing craft may be difficult to see and skippers need to maintain a proper lookout at all times and take appropriate action.

All windsurfers and kiteboarders have a duty of care to ensure their activities are conducted with regard to the prevailing conditions and circumstances and take appropriate action to avoid collisions.

- When travelling beyond 400 metres from shore in unprotected waters you need:
- lifejackets (minimum 50S) (must be worn);
 - a GPS enabled EPIRB or PLB (must be worn); and
 - flares.

For further information visit our website or call 13 11 56

Aids to navigation

It is illegal to interfere with, remove or damage any beacon, buoy or other artificial aid to navigation. Without permission in writing from the Department of Transport (DoT), it is illegal to secure any vessel to any beacon, buoy, seamark or other aid to navigation.

Obstruction of navigation aids, channels and leads
Cray pots, lines and floats, drop nets, fishing nets, marker buoys or other buoyed objects can not be placed or allowed to remain in any channel or fairway in any port or harbour, or in any channel, fairway or passage in any navigable waters without the permission of DoT.

You also can't anchor or moor a vessel in any channel or fairway, unless the vessel is in distress.

GPS validation markers

Global Positioning System (GPS) validation markers are unique visible marks placed at a number of public boat ramps and jetties where skippers and owners of portable GPS units can validate their position and map datum settings. The markers are small, flat and yellow, similar to 'cats eye' road lane markers. For further information visit our website or call 13 11 56.

Diving

Any boat with divers (not snorkellers) operating from it must always display signals by day or night to alert other boat users. The daytime signal for divers is an International Code Flag "A". The flag must be at least 750 millimetres long and 600 millimetres wide.

Divers operating without a vessel, for example from a jetty, must also display the International Code Flag "A". The flag must be displayed from a buoy and must not be less than 300 millimetres in length and 200 millimetres in width. The flag must be clearly visible to all vessels operating in the vicinity.

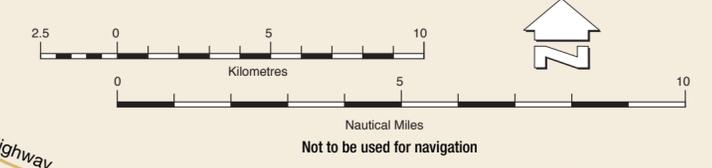

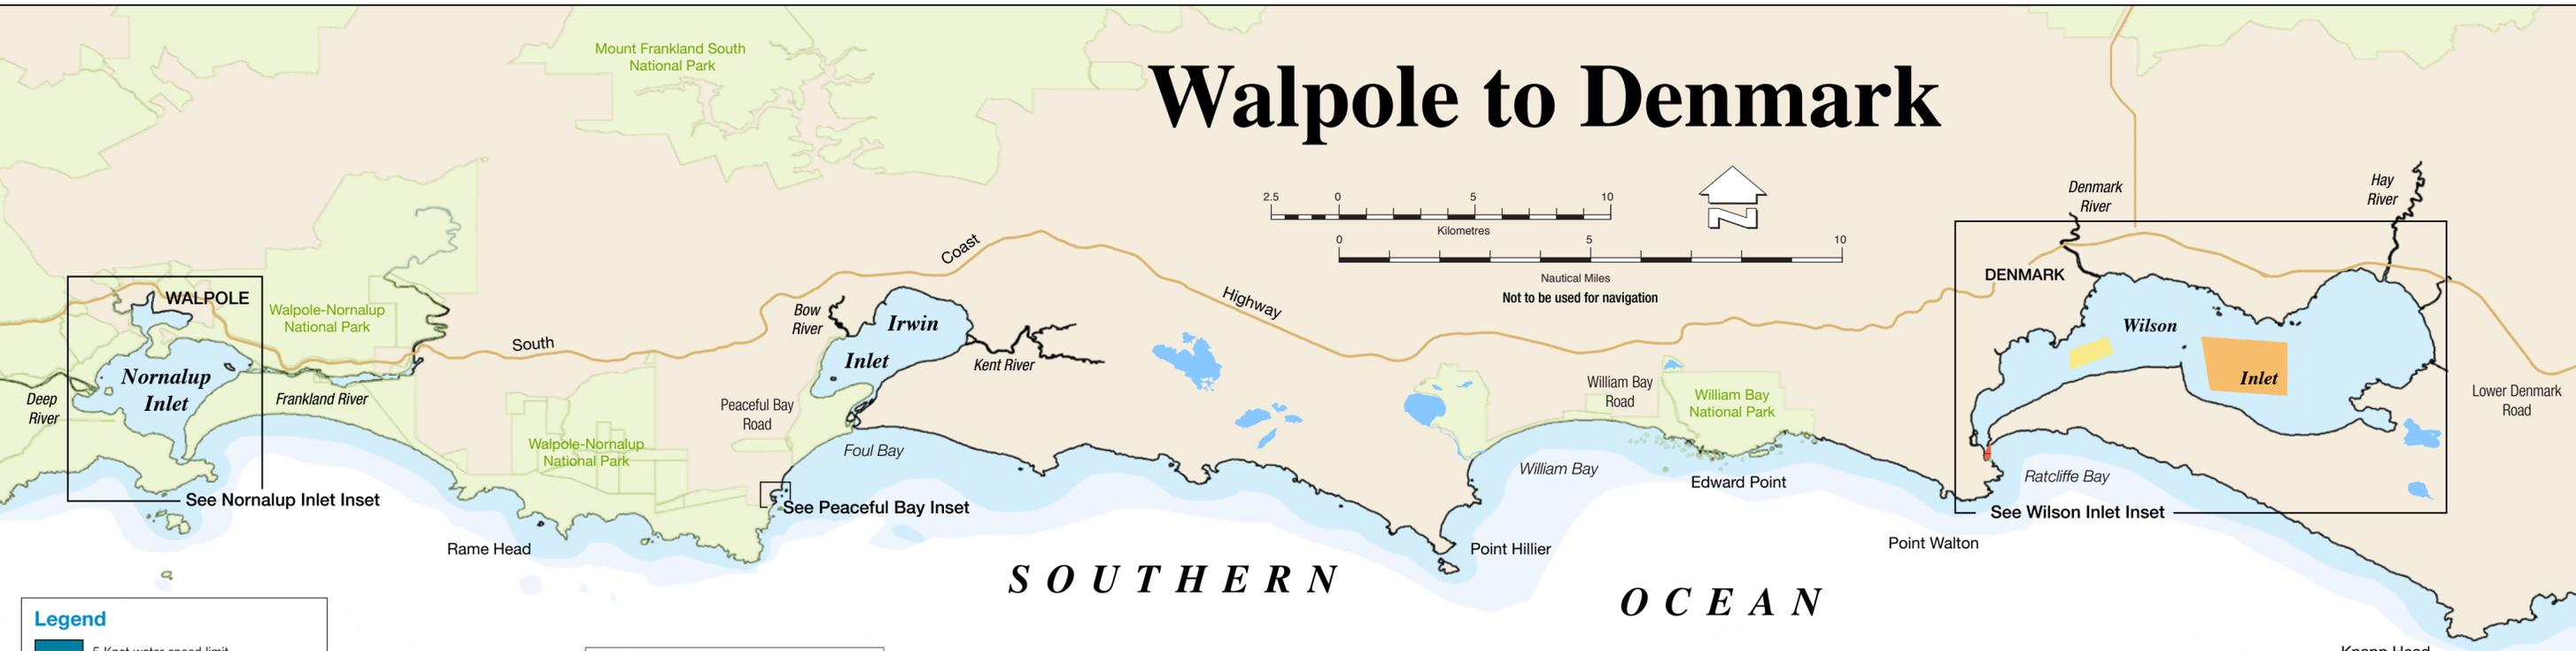

Vessels to keep clear
When approaching a place or another vessel displaying the International Code Flag "A" or the appropriate signal during the hours of darkness, you must —

- keep your vessel at least 50 metres clear of that place or vessel; or
- where it is not possible to keep 50 metres clear of that place or vessel —
 - proceed at the slowest speed at which the vessel can be safely navigated; and
 - maintain a proper lookout for people in the water.

For further information visit our website or call 13 11 56.

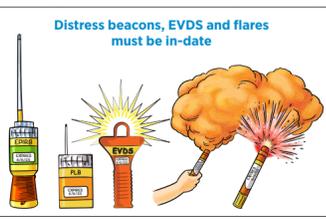

Walpole to Denmark

Legend

- 5 Knot water speed limit
- 8 Knot water speed limit
- Waterski area
- PWC and waterski area
- Closed waters - all vessels
- Closed waters - motorised vessels
- Rock, rock awash
