

**Marine Protected Areas**

Refer to <http://www.rotnestisland.com/> and Department of Fisheries and Department of Environment and Conservation publications for the latest information.

**CAUTION - Breaking Swells**

Passages through the reefs are subject to breaking swells and are, in these conditions, dangerous for small craft to transit. This is particularly so during the winter months in the northern bays, and the summer months in the southern bays. Furthermore, uncharted submerged hazards may exist in the bays and anchorages. Mariners are cautioned accordingly.

**CAUTION - Unexploded Ordnance**

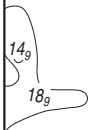

An area with radius 463m centred on 31°58.25'S 115°32.10'E is safe for surface navigation only. It is not safe for anchoring, trawling or seabed activities.

**TIDAL INFORMATION AND SOUNDING DATUM**
