Port Authority Statement of Corporate Intent and Strategic Development Plan - Process Guideline to seek Ministerial approval

This document is owned and authorised by the Executive Director, Department of Transport, Policy Planning and Investment division, Ports and Maritime branch (the Owner).

1. Purpose ......................................................................................................................... 2
2. Scope ............................................................................................................................ 2
3. Definitions ..................................................................................................................... 2
4. Policy Requirements ..................................................................................................... 3
5. Accountabilities / Responsibilities ................................................................................. 3
6. Legislative Requirements .............................................................................................. 4
7. Reference Links (standards, other policy) ........................................................................ 4
8. Supporting information .................................................................................................. 4
1. Purpose

The purpose of the Port Authority (PA) Statement of Corporate Intent (SCI) and Strategic Development Plan (SDP) process guideline is to document the process for seeking the Minister for Transport’s (MfT’s) approval in order to meet the legislative requirement under the *Port Authorities Act 1999* (Act).

Under the Act PAs are required to draft and submit their annual SCI and SDP for agreement with the MfT and concurrence of the Treasurer. The MfT is responsible for ensuring that:

- the SCI is tabled in Parliament within 14 days of it being agreed, and on or before 1 July each year; and
- the SDP is to be agreed by 1 June each year.

Department of Transport (DoT) is to ensure the appropriateness and compliance of the PA SCI and SDP submissions and that they are in accordance with the Act and any other relevant State Government policies or procedures.

2. Scope

The SCI and SDP process guideline clearly sets out requirements for the DoT to coordinate and monitor the various stages of development, submission, review and approval.

This guideline applies to DoT’s role in the SCI - SDP process but may also provide useful information for Port Authority staff.

The guideline does not cover the requirements for other parties in the process, but does provide some information about the role of Treasury for context and alignment.

The *Port Authorities Act 1999* (Act) is at all times the principal source document.

3. Definitions

**Act** – a formally drafted and written law adopted by both houses of a legislature (assembly and council), also called an act of parliament, or just act.

**Coordinating** – a synchronisation and integration of activities, responsibilities, and command and control structures to ensure that the resources of an organisation are used most efficiently in pursuit of the specified objectives.

**Guidelines** – a statement that is advisory or explanatory in nature and provides guidance on how departmental policies and procedures might best be implemented or applied.

**Monitoring** – a supervision of activities in progress to ensure they are on-course and on-schedule in meeting the objectives and performance targets.

**Policy** – a decision, course of action, or set of principles within which decisions can be made to address a problem or issue.

**Procedures** – an established method for progressing policy actions.
4. Guideline Requirements

The guideline describes the requirements for DoT to complete its role with respect to Port Authority SCI and SDP approvals including:

- How the review process is to be conducted – timelines, roles and responsibilities, collaboration.
- A structural framework for advice to be provided to the MfT.

This Guideline comprises a suite of documents as shown in the Table below.

<table>

PORT AUTHORITY STATEMENT OF CORPORATE INTENT AND STRATEGIC DEVELOPMENT PLAN

Interaction with Budget cycle for financial year 2017-18

**October - January**
- Budget submission & draft SCI - SDP reflect:
  - Significant changes to the strategic & operating environment
  - Cumulative financial impacts
  - Legislative Requirements
  - Feedback from previous year

- PAs submit draft SCI & SDP to the MfT by 15 January (with a copy to DoT).
- PAs provide Budget submission to DoT for MfT endorsement in December

- DoT provides a copy of the PA’s draft SCI & SDP to Treasury by Mid January
- MfT seeks DoT advice on the PA’s draft SCI and SDP

**January - March**
- DoT and Treasury review the SCI and SDP content and incorporate Treasury preliminary advice on budget submission.
- Treasury advises PAs of EERC outcomes
- DoT provides joint (Treasury/DoT) feedback, that includes any issues flagged by Treasury and suggested changes to PAs which are based on outcomes of the EERC.
- **Note** the budget decisions are still subject to Cabinet endorsement.

- MfT submits PA’s Budget Submission to Treasury in January
- Treasurer advises MfT of EERC outcome.

**April - June**
- PAs re-submit to DoT updated Board endorsed draft SCIs & SDPs that incorporate the budget decisions to include updated financial parameters (1 pager as previously included) and published AIP (from the Budget Paper Vol 2) by 30 April.

- Treasurer assesses SCIs & SDPs prior to providing concurrence
- MfT approves
- DoT re-submits on behalf of the PA’s the SCIs & SDPs with its advice to the MfT

- MfT endorses and submits to Treasurer for concurrence
- Treasury provides advice to the Treasurer on the PA’s SCI’s and SDPs

- Treasurer assesses SCIs & SDPs prior to providing concurrence
- MfT tables SCI within 14 days of approval in Parliament (due date before 1 July each year)

**Appendix 1**

- PAs provide Budget submission to DoT for MfT endorsement in December
- Post-Budget SCIs - SDPs reflect:
  - Consistency with approved Budget and forward estimates
  - Form & content requirements prescribed by legislation, regulation or policy

Not concurred
- PA advised
- Redraft & Resubmit if required
## Roles for DoT and Treasury in Port Authority SCI-SDP review process

<table>
<thead>
<tr>
<th>Component</th>
<th>DoT review role</th>
<th>Treasury review role</th>
</tr>
</thead>
</table>
| **Admin and Facilitation**         | Work collaboratively with PA’s to ensure all submission and approval deadlines are met and that documents are provided to all parties (MfT, Treasury) in a timely manner.  
• facilitate PA responses to questions from review parties  
• monitor and intervene to ensure all PA actions and DoT review functions are completed in a timely manner | Treasury Department officers provide a facilitation role for questions from Treasury Executive and the office of the Minister, back to the Ports and to DoT.  
• Facilitate timely feedback to ensure SCI is tabled in accordance with legislative requirements.  
• Respond to the OAG on timelines of SCI tabling. |
| **Compliance with Legislation**    | Content complies with the *Port Authorities Act 1999*                                                                                                                                                            | Treasury advises the Treasurer as input to his concurrence which is required under the legislation.                                                                                                                     |
| **Consistency**                    | Consistency within the plans, and across SCI/SDP, and previous SCIs / SDPs, if there are significant variances these will need to be adequately explained by PA’s.                               |                                                                                                                                                                                                                       |
| **Alignment with other documents** | Alignment with Strategic Planning Process and budget submissions:  
• Strategic Asset Plans (SAPs),  
• Capital Funding Requests in the Transport Portfolio budget submission and associated business cases  
• Mid-Year Review submissions  
• EERC /Cabinet decisions including report backs  
• Updated financial parameters (1 pager as previously included) and published AIP (from the Budget Paper Vol 2) when resubmitting to DoT post budget (normally late April). | Alignment with the Strategic Planning Process and Treasury records:  
• Government approved budget settings: SIMS and IMM  
• Strategic Asset Plans (SAPs)  
• EERC decisions including report backs  
• Treasury forecasts (include CPI, trade volume, port users) |
| **Economic Objectives**            | Review PA trade forecasts and how proposed port development (infrastructure and services) will impact on current and future growth / development of the port | Review economic outlook and alignment with Treasury’s Economic Division forecasts  
Trade forecasts - especially extractive industries. |
| **Government policy objectives**   | Review content and identify any potential sensitive issues that are likely to cause policy concern to the Minister/Government. Ensure appropriate engagement with other Government Agencies, if necessary. | Review against government policy objectives and for issues of concern to the Premier, Treasurer, or other Ministers and their offices (e.g. DSD, DMP, DRD). |
| Appendix 2          | Review financial performance indicators that contribute to the Rate of Return.  
|-------------------|------------------------------------------------------------------  
| Financial   | • Variances (current vs. budget year) (budget year vs. SDP period);  
| Objectives   | • Revenue and expenditure  
|              | • Operating profit (before tax)  
|              | • Tax and dividend contributions  
|              | • Approved and unapproved capital expenditure  
|              | • Rate of Return forecasts  
| Operational | Review against government financial policy objectives e.g. Salary Cap  
| Targets     | • Capital and Operating expenditure conformance to approved State budget  
|             | • Impact these on the state net debt, and Net Operating Balance  
|             | • Review tax and dividend calculations, if correct.  
|             | • Minor works program is adequate and being adequately managed.  
|             | • Financial analysis in accordance with description in outlook etc.  
|             | • PA return on assets is justified  
| Environmental | Compare forecast trade volumes with previous year’s actual trade volumes and together with forecast profit assess any impact on Port revenues to government and to other revenue streams such as royalties.  
| Management  | Treasury would rarely consider but may read from a risk mitigation perspective  
| Customer Service | Review the annual increase in Tariffs, Fees and Charges against forecast CPI and check that adequate justification is provided for variances above CPI.  
| Fees and Charges | Review proposed changes to fees and charges and advise EERC, Cabinet, if necessary.  
| Risk Management: | Review plans for sensitive issues which may raise port user, community, or stakeholder concern.  
| Output      | Advise the MfT to seek concurrence from the Treasurer and provide a report:  
|             | • How the PA proposes to achieve key objectives and performance targets  
|             | • financial impact table analysis  
|             | • confirmation that issues identified in the review have been addressed  
|             | Advise the Treasurer on the SCI/SDP including financial impacts, returns to Government and risks.  
|             | • Highlight issues and recommend strategies.  
|             | • If satisfied request Treasurer consider concurrence.

Check list for Annual Review of the Port Authority Statement of Corporate Intent (SCI) and Strategic Development Plan (SDP)

Under the Port Authorities Act 1999 (PAA) each Port Authority (PA) is required to submit their SDP and SCI annually for agreement by the Minister for Transport with the Concurrence of the Treasurer (s49 and s58 of the PAA).

<table>
<thead>
<tr>

<td><strong>A SDP must set out:</strong></td>
<td></td>
</tr>
</tbody>
</table>

- The port authority’s medium (1-3 years) to long term (3-5 years) objectives (including economic and financial objectives); and operational targets and how those objectives and targets will be achieved.

- Key Functions of the Port Authority are to:
  - Provide efficient and reliable services that meet the needs of Port users.
  - Provide and maintain infrastructure and facilities to meet the needs of Port users and sustain the Port’s operations and the environment. This includes the wharves, jetties maritime structures, buildings, railway lines, machinery, equipment, vessels, vehicles and any other associated infrastructure.
  - Facilitate trade within and through the port and plan for the future growth and development of the port.
  - Be responsible for the safe and efficient operation of the port.
  - Protect the environment of the port and minimise the impact of port activities on that environment.
  - Act in accordance with prudent commercial principles and endeavour to make a profit.

- To submit an Environmental Management Plan (EMP) – the EMP should define
  - The role and responsibility of the PA.
  - Identify environmental risks associated with Port activities.
  - Provide how best these risks can be managed or mitigated by PAs with minimal impact to the surrounding port environment.
  - Underline the PA’s environmental objectives and targets for the current financial year and subsequent years.
  - Provide a framework for ensuring environmental performance is continuously and systematically monitored and where necessary changes are made to improve performance.
  - Provide an overview of how the EMP facilitates or ensures compliance and meets the requirements under the **Environmental Protection Act 1986**.

- Competitive strategies – PAs to provide comment in their SDP on the long-term action plans devised to help them gain a competitive advantage and retain port customers. Such strategies include, for example investing in new technology, research and development (R&D) in an effort to stay ahead of the competition or other corporate strategies that consists of actively trying to pursue changes within the industry.

- Pricing – PAs to determine port pricing in accordance with prudent commercial principles, to allow for the making of a profit and taking into account the depreciation of
assets. For example, whilst considering setting the price PA’s may opt to do a review of port prices based on, an estimation and evaluation of its costs, or a comparative analysis that takes into account current market situation and price.

- Service efficiency and effectiveness – PAs measure their efficiency through their defined Key Performance Indicators (KPIs), which indicate whether port services are performed at a desired level, when measured specifically to established targets or goals. KPI examples include berth occupancy, turnaround times and volume of trade KPI, which are key indicators of PA’s proficiency in performing its functions.

- Participation of potential suppliers – PAs where applicable, are to provide local industry with full, fair and reasonable opportunity to participate in the projects earmarked for development. PA’s to facilitate the participation of potential suppliers in the provision of port services or, if no arrangements are proposed, the reason and justification for their absence.

- Strategies for land use and infrastructure maintenance – PAs to identify strategies that will protect infrastructure corridors of economic significance and maintain their ability to operate at maximum efficiency. PAs to identify infrastructure maintenance programs that will insure and protect the continued and long term safety and operations of their port infrastructure.

- Financial requirements – As per the Financial Management Act 2006, PAs must include estimates of revenue and expenditure, borrowings and dividends. Financial KPI’s to include return on assets (RoA) or rate of return (RoR), operating profit (before tax) and dividends to be paid to Government.

- Capital expenditure – the approved and unapproved capital expenditure, indicating money being spent by PAs on acquiring or maintaining fixed assets, such as land, buildings, and equipment.

- Investment strategy - PAs have their own set of rules or procedures which are designed to guide them in mapping out different strategies to meet their requirements. PA’s to consider circumstances for the need to change their strategy or have an alternative strategy or plan in place, if required.

- Customer service arrangements – PAs are to articulate the type of customer services being provided to port customers. What measures are being taken to ensure the product or service being offered meets the port customer’s satisfaction.

- Relevant government policy – For example, the Government’s Salaries and Wages Policy, should be a benchmark for future salary and wage negotiations. PA’s should try and adhere to the Government’s salaries and wages policy, or any subsequent new Government policy.

- Personnel requirements - PAs need to ensure that they have programs in place to support the development of their personnel. Opportunities for training, improving professionalism and experience, should be given to motivate personnel to achieve the PA’s vision and goals.

- Trade projections – PAs to provide indicators and forecasts to cover trade based on port customer feedback of future exports and imports, that take into account the 5-year SDP period.

- Trade facilitation – PAs to incorporate in their SDP the procedures and controls they will/have put in place to govern the efficiency and delivery of their trade facilitation function. This will assist PA’s to safeguard the future interest and development opportunities identified in their business model.

- The environmental management of the port – in line with the EMP and under the Environmental Protection Act 1986.

- any other matters that the Minister and the board agree should be considered.
### Matters to be included in the PAs Statement of Corporate Intent under s60 of the PAA

A SCI must be consistent with the SDP under Division 1 for the port authority and any subsidiary and must specify:-

<table>
<thead>
<tr>
<th>Item</th>
<th>Check</th>
</tr>

any other matters that may impact its preparation of accounts.

- type of information to be given to the Minister, including information to be given in half yearly and annual reports, that includes:-
  - information required by the Minister to enable an informed assessment to be made on the operations of the port authority or the subsidiary; and
  - include a commentary on any significant issues relating to the performance of the port authority or the subsidiary that were raised in any relevant statement of corporate intent; and
  - include particulars of any directions given by the Minister
  - include particulars of the impact on the financial position, profits and losses and prospects of the port authority or the subsidiary of any directions that were given by the Minister during the relevant financial year; and
  - total value of payments and details of remuneration made to directors of the board of the port authority; and
  - a summary of the performance of the port authority in relation to its functions to protect the environment of the port and minimise the impact of port operations on that environment.

- Proposed arrangements to facilitate the participation of potential suppliers in the provision of port services or, if no arrangements are proposed, the reason and justification for their absence (same as the SDP but for the Budget Year).

- Nature and extent of community service obligations (CSO) that are to be performed – PA’s to provide details where Government specifically requests PAs as a CSO to carry out activities that the PA would not elect to do on commercial grounds, or would only undertake commercially at higher prices. (Or other term being used by Treasury – “Operating Subsidy” instead of CSO) to be performed. PA’s must also indicate if they are receiving any funding or subsidy from Government to perform this CSO.
  - **Note:** The CSO does not include activities PA’ are involved in such as, providing donations to charities, sporting clubs in the form of sponsorships etc. that PAs conduct or undertake on their own initiative without Government direction.

- Costings of, funding for, or other arrangements to make adjustments relating to, community service obligations. PAs to provide a breakdown of funding in the SCI period.

- Ways in which, and the extent to which, compensation will be made for performing community service obligations; and

- Any other matters as may be agreed on by the Minister and the board of the port authority

The Minister may exempt a PA from including any matter, or any aspect of a matter, mentioned in subsection (2) in the SCI and any such exemptions are to be noted in the SCI of the relevant PA.
