During the meeting key stakeholders meet with DoT and Skippers to discuss airline performance, initiatives, and partnership opportunities. These discussions are vital in ensuring the air route's long-term viability and to foster potential route growth.– DoT engages with Skippers regularly in relation to any issues that may occur on the air routes.• Under the Deed, Skippers is required to report monthly on key statistics such as passenger numbers, load factors, airfares, On Time Performance (OTP) and service cancellations. |

Passenger Demand

- Current passenger demand for RPT air services operating on the Northern Goldfields routes for Laverton, Leonora, Meekatharra, Mount Magnet and Wiluna is enough for only one operator. Generally, demand of less than 100,000 passengers per year is unlikely to sustain two airline operators.
- Graph 1** demonstrates the passenger demand for Laverton and Leonora over a five-year period between 2019/20 and 2023/24.
 - In 2023/24, the number of passenger movements on the Leonora route decreased by 22% to 4,921 and by 1% to 3,364 on the Laverton route compared to the previous year.

- Graph 2** demonstrates the passenger demand for Wiluna, Meekatharra and Mt Magnet over a five-year period between 2019/20 and 2023/24.
 - In 2023/24, the number of passenger movements between Perth and Wiluna increased by 4% to 3,776 compared to the previous year. Demand decreased by 24% to 2,689 on the Meekatharra route and by 52% to 967 on the Mt Magnet route compared to the previous year.

Air Service Performance

On Time Performance (OTP)

When a flight departs/arrives within 15 minutes of the scheduled time, it is considered on time. This is an airline industry benchmark. The OTP of flights can be affected by controllable or uncontrollable circumstances causing the flight delays.

Controllable delays

Controllable delays are those circumstances that cause flight delays that are within the airline’s control and the airline has capacity to rectify potential delays.

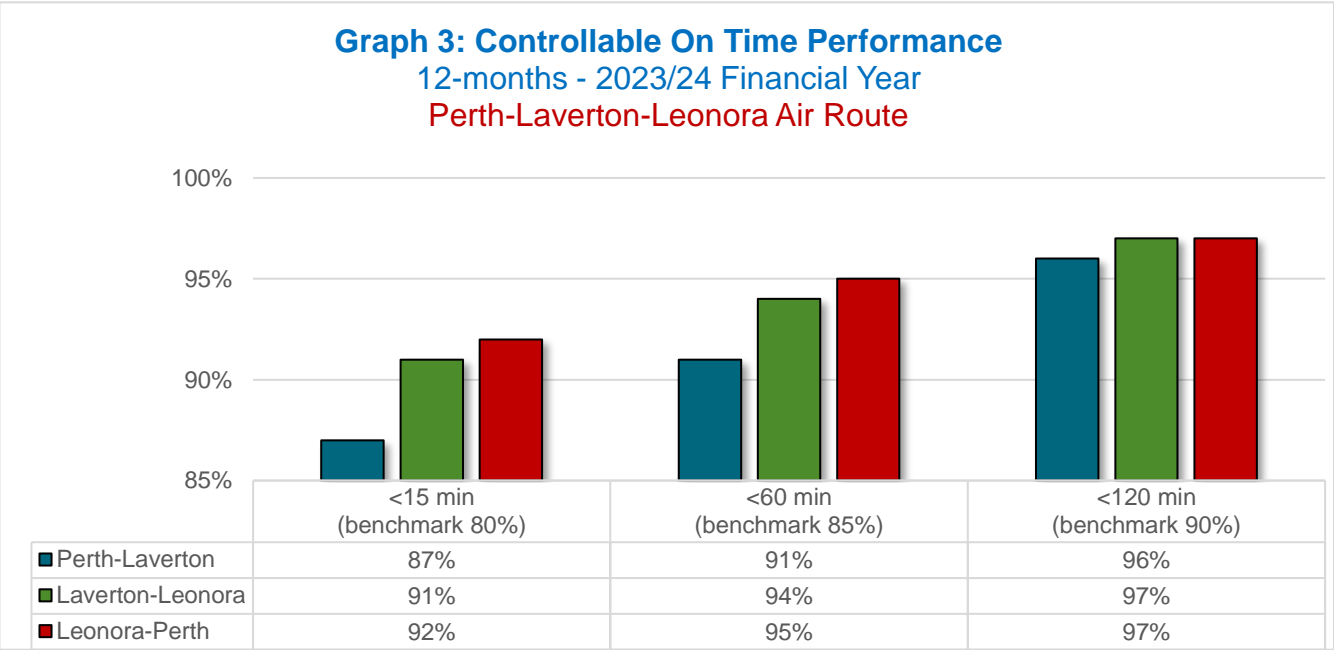

Uncontrollable delays

Uncontrollable delays are those circumstances that cause flight delays that are beyond the airline’s control and capacity to rectify, such as bad weather conditions, airport congestion and air traffic control delays by third parties at airports.

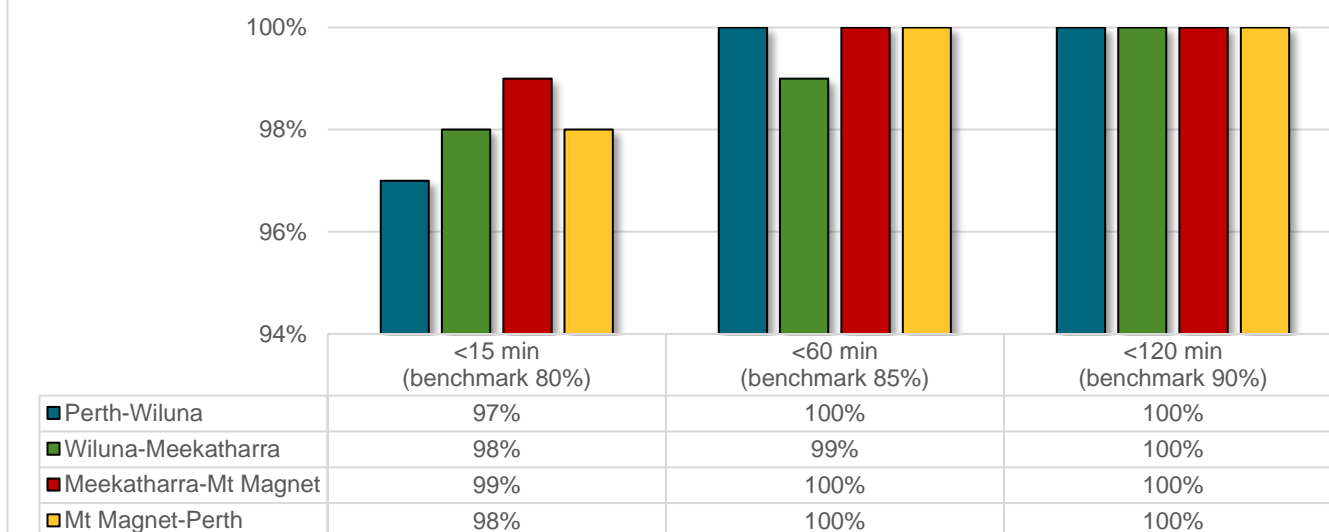

OTP Benchmarks

Under the Deed of Agreement with the State, Skippers is required to meet or exceed the following for aircraft departures and arrivals:

- 80% controllable OTP within 15 minutes of scheduled departure and arrival times;
- 85% controllable OTP within 60 minutes of scheduled departure and arrival times; and
- 90% controllable OTP within 120 minutes of scheduled departure and arrival times.

Booking and Service Surcharges

Aircraft Upgrade Procedure

Passenger loads are monitored by Skippers Aviation in the lead up to the flight. If required, an aircraft can be upgraded up to 3 weeks before the flight. In addition, if passengers contact Skippers reservation line on 1300 729 924 they can be placed on a waitlist. If the number of people on the waitlist grows to a number where a larger aircraft would be viable for the airline, Skippers will then upgrade the aircraft depending on aircraft availability.

Baggage Allowance

The Skippers baggage allowance on the air routes is:

- 15kg in total inclusive of checked hand luggage on the Perth-Northern Goldfields air routes.
- Excess baggage over the abovementioned allowances can be carried subject to:
 - the aircraft not exceeding the regulatory maximum take-off weight; and
 - payment of an excess baggage charge.

Air Freight

Skippers carries air freight (excluding dangerous goods) on the RPT air service when capacity allows. The Perth-Northern Goldfields air services are passenger transport air services and priority is given to passengers and passenger baggage. All air freight is consigned with Skippers Aviation.

Skippers prioritises checked baggage and freight as follows:

- checked baggage within the checked baggage weight allowance;
- urgent medical freight;
- excess checked baggage; and
- non-urgent freight.

Skippers Cancelled/Delayed Flight Notification

If a Skippers aircraft is delayed or cancelled, Skippers announces the delay/cancellation within the airport terminal and calls any passengers who are not within the terminal. If the aircraft is delayed and passengers are within the terminal, light refreshments are offered to all passengers within the terminal. If the aircraft is significantly delayed exceeding 90 minutes, cancelled passengers have the option of a full refund. Customers can also phone Skippers Reservations on 1300 729 924 to check the status of a flight.

Customer Service

For all customer service enquiries, including feedback and complaints, Skippers can be contacted by phone on 1300 729 924 or by email on reservations@skippers.com.au.
