### IMPORTANT INFORMATION

The Visa Entitlements Verification Online (VEVO) system has been made available by the Department of Immigration and Border Protection.

The online system is used to verify a person's visa entitlements for Australia, including their entitlements to work or live in Australia.

#### Identity requirements for driver's licence applicants

The *Road Traffic (Authorisation to Drive) Act 2008* requires that the Chief Executive Officer of the Department of Transport be satisfied with the identity of an applicant for a driver's licence prior to granting that licence.

The Department of Transport (DoT) requires access to your details through the VEVO system to verify your visa entitlements and therefore assess your application for a Western Australian driver's licence.

In order for DoT to verify your identity, it is a requirement to obtain your consent for authorised DoT staff to access your visa details.

You must acknowledge that you have understood the following points:

- This inquiry is for the sole purpose of checking the validity and entitlements of your Australian visa to confirm that you are eligible to apply for a Western Australian driver's licence.
- Information captured by VEVO may be used by the Commonwealth in order to locate you.

### DECLARATION

I, the undersigned, confirm that I have read and understood this document and the purpose of it, and give permission for DoT to access information relating to my Australian visa entitlements for the purpose of me applying for a Western Australian driver's licence.
