

Engagement and Governance

JULY 2018

Who's involved with Westport

The Westport Taskforce is keen to involve as many people as possible in the development of the *Westport Strategy*.

The Taskforce is led by the Independent Chair of the Steering Committee, Nicole Lockwood, who reports directly to the Minister for Transport, Planning and Lands to oversee the development and delivery of the strategy.

Through a comprehensive suite of committees and reference groups (*Figure 1*), the Taskforce brings together people from Commonwealth, State and Local Government, industry, academia and unions, as well as environmental and community groups.

Independent expert peer reviewers are engaged to 'sense check' progress at each stage of the project.

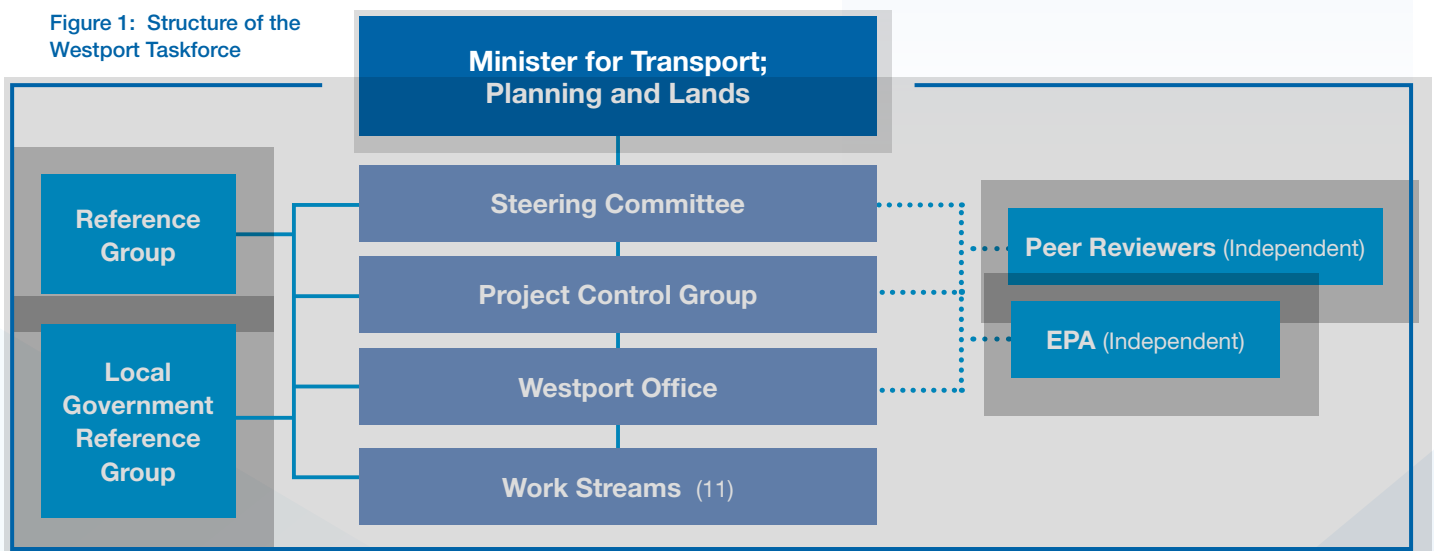

Members of the eleven work streams are subject matter experts drawn from government, industry and community groups, and include port, transport and land use planners, scientists, economists and community representatives. Together, they apply their knowledge and experience to answer key questions that guide the Westport process.

The Westport process is highly consultative and provides opportunities for the community to:

-  Learn more via the Westport website at transport.wa.gov.au/Westport
-  Receive regular project updates
-  Provide comment to draft publications when released (*Figure 2*)
-  Share your views by talking to Westport team members at community information sessions

Whether you are an organisation or an individual, your opinion matters—and the Westport team wants to hear from you.
