The redevelopment of the Two Rocks marina is an exciting opportunity for Perth’s northern suburbs, and will establish Two Rocks as a premier seaside destination. To achieve the ultimate vision, the master plan identifies numerous stages and projects that can each contribute to ongoing improvements in the marina over time.

The Two Rocks short-term Activation Plan comprises the projects which can be programmed now, to provide some short term wins for the local community and enhance the growing maritime industry.

For more information about how this project is progressing, please go to www.transport.wa.gov.au/projects/two-rocks-marina-projects.asp.
