- PTH IC (Commonwealth Waters)
- Management Support
- NOPSEMA Representative

*The The role of the Joint Strategic Coordination Committee (JSCC) is to facilitate effective coordination between the two Controlling Agencies and their respective IMT's, in a Marine Oil Pollution (MOP) incident originating from an offshore petroleum activity in Commonwealth Waters that is also impacting WA State Waters*

Further information on the overall coordination arrangements for a Cross Jurisdictional MOP incident and the key functions of the JSCC is outlined in the Offshore Petroleum Industry Guidance Note
